

OTT® Aeration Systems in High-Saline Environments

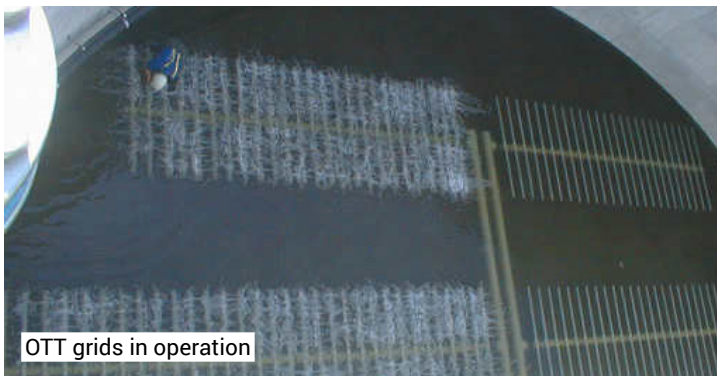

References

Customer: Hoechst
Plant location: Frankfurt, Germany

Installed in: 2005
Wastewater chloride content: 4000 mg/L
Equipped with:
8 fixed aeration grids (PP),
232 **MAGNUM® FLEXSIL®** tube diffusers

Customer: AKZO NOBEL
Plant location: Rotterdam, Netherlands

Installed in: 2011
Wastewater chloride content: 20,000 mg/L
Equipped with:
6 liftable aeration grids (PP),
1220 **MAGNUM® FLEXSIL®** tube diffusers

References: OTT® Aeration Systems in High-Saline Environments

Customer: BASF

Plant location: Lampertsheim, Germany

(other BASF plants equipped with equivalent OTT systems)

Installed in: 2012

Wastewater chloride content: 15,000 mg/L

Equipped with:

2 fixed aeration grids (316 grade stainless),
200 **MAGNUM® FLEXSIL®** tube diffusers

Customer: Pharmazell

Plant location: Raublingen, Germany

Installed in: 2013

Wastewater chloride content: 15,000 – 20,000 mg/L

Equipped with:

2 fixed aeration grids (PP),
192 **MAGNUM® FLEXSIL®** tube diffusers
(with nylon clamps)
